

# Contents

Foreword.....	iii
---------------	-----

## Opening Session

*Chair: E. Daly*

Opening remarks .....	3
<i>Cendral, J.</i>	
Sponsor's comments-NASA .....	5
<i>Minor, J.</i>	
Sponsor's comments-DERA .....	7
<i>Latham, P.</i>	
Spacecraft Charging: A French Experience .....	9
<i>Catani, J.-P.</i>	
Sponsor's Comments – AFRL .....	653
<i>D. Cooke</i>	

## Course on Spacecraft Plasma Interactions

*Organised by CNES*

Space Plasma Environment and Spacecraft Charging, .....	13
Sun, Solar Wind, Magnetosphere, Ionosphere	
<i>Koskinen, H.</i>	
Spacecraft Interactions with their Space Environments .....	19
(Incl. Radiation, UV, X, Fields, Plasma, Debris, ...)	
<i>Boudenot, J.-C.</i>	
Interaction of Plasma with Surfaces and Bodies .....	23
<i>Cooke, D.</i>	
Internal Charging In Space.....	25
<i>Rodgers, D.J.; K.A. Ryden</i>	
Electrostatic Discharges and Spacecraft Anomalies .....	33
<i>Catani, J.-P.</i>	
Modelling of Spacecraft Plasma Environment Interactions .....	45
<i>Roussel, J-F.</i>	
Space Tethers: an Overview.....	61
<i>Iess, L.</i>	
Future Challenges in Spacecraft Plasma Interactions: Plasma Propulsion Systems and Gas Release.....	71
<i>Tajmar, M.</i>	

## Session 1: Engineering Practices, Methods and Procedures

*Chair: D. Ferguson*

Spacecraft Plasma Interactions at ESA: Welcome and Overview.....	79
<i>Hilgers, A.</i>	
Spacecraft Charging - Welcome and the NASA Glenn Perspective .....	83
<i>Ferguson, D.C.</i>	
Research Activity in Mitsubishi Electric on Spacecraft Charging .....	89
<i>Fujii, H. et al.</i>	
ISS and Space Environment Interactions in Event of Plasma Contactor Failure.....	95
<i>Carruth Jr., M.R. et al.</i>	
MESSENGER Spacecraft Charging Analysis.....	101
<i>Katz, I. Et al.</i>	
Improved Testing Procedures for Spacecraft Discharge Pulses .....	109
<i>Frederickson, A.R. &amp; Benson, C.E.</i>	
Comparison of the NASCAP/GEO, SEE Interactive Charging Handbook .....	115
and NASCAP-2K.1 Spacecraft Charging Codes <i>Neergaard, L. et al.</i>	
Hall Current Thruster Plume Spacecraft Modeling.....	121
A Diagnostic Tool for Spacecraft Subsystem Impact <i>Gardner, B. et al.</i>	
ETS-VIII Solar PDL Plasma Interaction Problem Approach .....	127
<i>Takahashi, M. et al.</i>	
The Effect of Temperature on Internal Charging and its Potential Role in Hazard Mitigation .....	133
<i>Ryden, K. et al.</i>	
Electric Effects of Plasma Propulsion on Satellites .....	139
<i>Brosse, S. et al.</i>	
Numerical Simulation of the Electrical Charging of the ROSETTA Orbiter .....	145
<i>Roussel, J-F. &amp; Berthelier, J-J.</i>	
Electrostatic Discharges on Solar arrays – Physical Model of Inverted Potential .....	151
Gradient Electrostatic Discharge <i>Payan, D. et al.</i>	
Spacecraft Charging Models in ESA's Space Environment Information System (SPENVIS).....	163
<i>Heynderickx, D. et al.</i>	
Spacecraft Anomaly Analysis and Prediction System – SAAPS .....	169
<i>Wintoft, P. et al.</i>	
Vacuum Arcs: Literature Review and Common Characteristics with Secondary Arcs .....	177
on Solar Arrays <i>Amorim, E. et al.</i>	

Charging Analysis of Engineering Test Satellite VIII (ETS-VIII) of Japan .....	183
<i>Fujii, A. et al</i>	
Spacecraft Charging Interactive Handbook.....	189
<i>Katz, I. et al.</i>	
The SHIELD <sup>(TM)</sup> System for Spacecraft Charge Control .....	197
<i>Aston, G. et al.</i>	
Influence of Electric Charging on the ROSINA Instrument in the Plasma Environment .....	203
of Comet 46P/Wirtanen <i>Nyffenegger, O. et al.</i>	
Application of the GEANT Tools for Spacecraft Internal Charging Simulation.....	207
<i>Mileev, V.N. et al.</i>	
The Description of Dynamic Spacecraft Charging using Modern Computer Tools.....	211
<i>Mileev, V.N. et al.</i>	

## **Session 2: Environment Specifications**

*Chair: D. Heynderickx*

AF-Geospace: an Update .....	217
<i>Hilmer R.V. et al.</i>	
NASA's Space Environments and Effects (SEE) Program .....	223
<i>Minor, J.</i>	
Plasma Environment and Effects Specification: ESA's Perspective of the Future.....	229
<i>Daly, E. &amp; A. Hilgers</i>	
Space Weather Forecasting: Under the Hood of the Magnetospheric Specification Model .....	235
<i>Hilmer, R. et al.</i>	
High Latitude Plasma Electrodynamics and Spacecraft Charging in Low Earth Orbit.....	241
<i>Minow, J.I. et al.</i>	
Geometric model of Large Scale Structures in the Magnetosphere .....	247
<i>Evans, H.D.R. et al.</i>	

## **Session 3: In-Flight Investigations, Measurements and Observations**

*Chair: H. Usui*

Effects of Active Spacecraft Potential Control on CLUSTER Plasma Measurements - First Results .....	255
<i>Torkar, K. et al.</i>	
The Field and Potential Variation on High Elliptical Orbit.....	261
- the Result of INTERBALL Project (1995 - 2000) <i>Klimov, S.I. et al.</i>	
Comparing CRRES Internal Discharge Monitor Results with Ground Tests .....	265
and Published Guidelines <i>Frederickson, A. et al.</i>	

Results of Electric Static Charge Measurement Onboard ETS-V, VI, ADEOS .....	275
<i>Matsumoto, H. et al.</i>	
Spacecraft Charging: Observations and Relationship to Satellite Anomalies .....	279
<i>Fennell, J.F. et al.</i>	
Scintillator-Based Low Energy Particle Imaging Spectrometer for Nanosatellites.....	287
<i>Galica, G.E. et al.</i>	
Initial Correlation Results of Charge Sensor Data from Six INTELSAT VIII Class .....	293
Satellites with Other Space and Ground Based Measurements	
<i>Ozkul, A. et al.</i>	
First Results of the SILLAGE Flight Experiment Aboard SPOT-4.....	299
<i>Catani, J-P. &amp; Payan, D.</i>	
In Flight Measurement of the Outside Surface Potential of "Mir" Orbital Station.....	303
<i>Klimov, S.I. et al.</i>	
RF Effects on Oedipus-C Floating Voltages .....	309
<i>Laframboise, J.G. et al.</i>	
An Upper Atmospheric Probe for Auroral Effects.....	315
<i>Sanmartin, J.R. et al.</i>	
Research of Geosynchronous Spacecraft Charging Effects in Terms of the Onboard .....	321
Hot Plasma Spectrometer Data	
<i>Novikov, L.S. et al.</i>	
Anomaly Attributed to Low Earth Orbit Plasma Environment .....	325
<i>Li Wang et al.</i>	
A Survey of Surface Charging Events on the DMSP Spacecraft in LEO.....	331
<i>Anderson, P.C.</i>	
The Discharge Detector Experiment.....	337
<i>Ciccolella, A. &amp; Wolf, J.</i>	
Profiles of Inner and Outer Belt Internal Charging Currents against Geomagnetic Parameter ‘L’: .....	341
Results from the first “SURF” Experiment	
<i>Ryden K. et al.</i>	
Bootstrap Charging on the DSCS Satellite.....	345
<i>Lai, S.T. et al.</i>	
INTERBALL-2 Thermal Plasma Measurements. 2.....	351
Spacecraft potential in magnetospheric auroral region at altitudes 2--3 R <sub>E</sub>	
<i>Afonin, V. et al.</i>	

## **Session 4: Laboratory Experiments, Measurements and Testing**

*Chair: S. Lai, G. Drolshagen*

Laboratory Tests on Plasma Interactions of ETS-VIII Solar Arrays.....	359
<i>Ramasamy, R. et al.</i>	

The Floating Potential Probe (FPP) for ISS – Operations and Initial Results .....	365
<i>Ferguson, D.C. et al.</i>	
Life Testing of the Hollow Cathode Plasma Contactor for the ProSEDS Mission .....	371
<i>Vaughn, J.A. et al.</i>	
Secondary Arcs on Solar Arrays: Occurrence, Thresholds, Characteristics and Induced Damage .....	377
<i>Levy, L. et al.</i>	
Experimental Results of Testing Electron Field Emission Cathodes for Spacecraft Applications .....	383
<i>Aguero, V. &amp; Adamo, R.C.</i>	
Plasma Measurements in the ESA Electric Propulsion Laboratory .....	389
<i>Nicolini, D. et al.</i>	
Plasma Diagnosis in the Plume of the 20mN Ion Thruster for ETS-8 .....	395
<i>Ozaki, T. et al.</i>	
Development of Charge Distribution Measurement System using Pockels Effect.....	401
<i>Ishikawa, M. et al.</i>	
An Experimental Investigation of the Effects of Charging on the International Space Station .....	405
<i>Schneider, T. et al.</i>	
Measurement Techniques for Charging in Bulk of Insulating Materials Irradiated .....	411
by Radioactive Rays	
<i>Tanaka, Y. et al.</i>	
New Scaling Laws for Spacecraft Discharge Pulses.....	417
<i>Frederickson, A.R.</i>	
Pre-contact Microdischarge from Charged Particulates .....	423
<i>McDonnell, J.A.M. et al.</i>	
Development of Deep Charge Monitoring System for Spacecraft Utilizing the PIPWP Method.....	429
<i>Watanabe, R. et al.</i>	
Laboratory Ground Simulation of GEO and LEO Environment.....	435
<i>Viel-Inguibert, V. et al.</i>	
Hypervelocity Debris Initiated Spacecraft Discharging .....	441
<i>Stein, C.</i>	
Risks of Low-voltage Arcs Sustained by the Photovoltaic Power of a Satellite Solar Array .....	447
During an Electrostatic Discharge. Solar Arrays Dynamic Simulator	
<i>Payan, D. et al.</i>	
Laboratory Experiments on Mitigation Methods against Solar Array Arcing: .....	455
Prevention of Ion Charging	
<i>Cho, M. et al.</i>	
Laboratory Simulation of Charging Relaxation by Plasma Flow.....	461
<i>Tahara, H. et al.</i>	
Gas Discharge Phenomena in Spacecraft Discharge Pulses.....	467
<i>Frederickson, A.R. &amp; Benson, C.E.</i>	

Arc Inception Mechanism on a Solar Array Immersed in a Low-density Plasma.....	469
<i>Vayner, B. et al.</i>	
Laboratory Simulation of Spacecraft Surface Charging and Discharging Caused ..... Structural Potential Transients and its Interference Test Method on DC-DC Converter	475
<i>Weiquan, F. et al.</i>	
The Magnetic Field Effect on Photoelectron Current from a Positively Charged Spacecraft.....	479
<i>Veselov M.V. &amp; Buzulukova N. Yu.</i>	
Design and Testing of the Floating Potential Probe for ISS.....	485
<i>Hillard, G.B. et al.</i>	

## **Session 5: Theoretical and Numerical Developments**

*Chair: J.-F. Roussel*

Some Space Hazards of Surface Charging and Bulk Charging.....	493
<i>Lai, S.T.</i>	
NASCAP-2K Spacecraft Charging Models: Algorithms and Applications.....	499
<i>Mandell, M. et al.</i>	
Electrostatic Charging simulation of Spacecraft using a Stationary Plasma thrusters..... in Geostationary Plasmic Environment	509
<i>Chanrion, O.</i>	
A New Spacecraft Plasma Simulation Software, PicUp3D/SPIS.....	515
<i>Forest, J. et al.</i>	
Electromagnetic Particle Simulation with Unstructured-Grid Model .....	521
<i>Okada, M. &amp; Matsumoto, H.</i>	
Electron Current Collection by a Bare Tether in Mesothermal Conditions .....	525
<i>Onishi, T. et al.</i>	
Magnetic Self-Field Effects on Bare-Tether Current Collection.....	531
<i>Sanmartin, J.R &amp; Estes, R.D.</i>	
PIC Simulations of the Space Environment Effects of Plasma Contactor .....	535
<i>Usui, H. et al.</i>	
Modelling the Plasma Flow in a Hall Thruster .....	539
<i>Ahedo, E. et al.</i>	
Electric Propulsion Plasma Simulations and Influence on Spacecraft Charging.....	545
<i>Tajmar, M.</i>	
Effective Ion Current Computation Algorithm for Modeling of LEO Spacecraft Charging.....	555
<i>Makletsov, A.A. et al.</i>	
Plasma Sheath Analysis and Current Calculations from the Potential Distribution .....	557
around Interball Auroral Probe	
<i>Bouhram, M. et al.</i>	

Landau Fluid Model of Multi-Stream Instabilities and Application to Plasma Contactor Plumes .....	563
<i>Lapuerta, V. &amp; Ahedo, E.</i>	
Combined Effects of Satellite and Ion Detector Geometries and Potentials on the Measurement .....	569
Of Thermal Ions. The Hyperboloid Instrument on Interball	
<i>Hamelin, M. et al.</i>	
Modelling of the Electric Propulsion Induced Plasma Environment on SMART-1 .....	575
<i>Tajmar, M. et al.</i>	
Short Electrodynamic Tethers.....	581
<i>Sanmartin, J.R. et al.</i>	
Low-Energy Electromagnetic Processes in Geant4 in the Context of Spacecraft Charging .....	587
<i>Niminen, P. &amp; Pia, M.G.</i>	

## **Session 6: Interplanetary Missions and Environments**

*Chair: A. Pellinen-Wannberg*

Large-Scale Mini-Magnetosphere Plasma Propulsion (M2P2) Experiments .....	593
<i>Winglee, R.M. et al.</i>	
Characteristics of the Plasma Environment for the SMART-1 Mission .....	601
<i>Laakso, H. &amp; Foing, B.</i>	
Internal Electrostatic Discharge Environment at Jupiter .....	609
<i>Garrett, H.B. &amp; Evans, R.W.</i>	
The Plasma Environment around Mercury.....	617
<i>Grard, R. &amp; Laakso, H.</i>	
Experimental Tests of Numerical Simulation of the Interaction of the ROSETTA Orbiter .....	623
with the Cometary Plasma	
<i>Berthelier, J-J. &amp; Roussel, J-F.</i>	
Charging Effects on Cosmic Dust.....	629
<i>Mann, I</i>	
Detecting Dust with Electric Sensors in Planetary Rings, Comets and Interplanetary Space.....	635
<i>Meyer-Vernet, N.</i>	
<b>Participants List</b> .....	643

## **Late Papers**

Sponsor's Comments – AFRL .....	653
<i>Cooke D.</i>	
Interactions of Plasmas with Surfaces and Bodies in Space (Notes for CNES Course).....	655
<i>Cooke D.</i>	
<b>CD-ROM</b> (containing papers from both 6 <sup>th</sup> and 7 <sup>th</sup> SCTC) .....	Inside back cover
